

Pride

Buckcherry

You want her attention
Well you'll have to wait
She's in the gymnasium
Reducing weight
In shorts or a leotard
Despite her age
The girl's gonna exercise
Your life away
Sister don't you jog it all away
Sister don't you run it all off
Sister don't you jog it all away
Sister don't you rough it all up
What an idea of fun
To get it on the run
I don't know why you do
What has come over you?
The style in the discotheque
Is cheap and nice
Please tell Miss Fonda
To reduce her price
Anorexia, nervosa, mannequin
All this physicality
Will wear you thin
Hey Olivia, Newton, John
What you say?
Hey Olivia, Newton, John
What you say?
She used to yield like flesh
Now it's all muscle
She used to yield like flesh
Now it's all muscle
We used to ride tandem and have lots of fun
But bicycles for exercise are made for one
I don't know what you do
What has come over you
It's an idea of fun
To get it on the run
Sister don't you jog it all away
Sister don't you run it all off

Sister don't you jog it all away
Sister don't you rough it all up
Sister don't you jog it all away
Sister don't you run it all off
Sister don't you jog it all away
Sister don't you rough it all up
