On The Road

David Todd Singleton

ON THE ROAD

words and music by:

copyright 1999(c)

you and me baby â€“ we go a'travelin along
takin to the road and singin our favorite song
you and me baby got a long way to go
believer it or not i know what i know from the road
and sooner or later we'll call it a year
time will fly by and i'll still be here on the road

when you were young you thought that you'd find
destiny waiting for you at the end of the line
on the road
don't know where we're goin but we're travelin far
journey to the east by a mornin star
on the road

(Hmmmm 16 bars) intrumental

(spoken - â€œnowâ€•)
dreams may come and we'll dream as we go
little by little we'll meet at the end of the road
Hmmm,you'll think of me in a different way
but, i'll love you more what else can i say
on the road
don't know where we're goin but we're travelin far
journey to the east by a â€“ mornin star
on the road

(Hmmm 16 bars)
on the road, on the road, on the road
on the road
