ZICO - BERMUDA TRIANGLE English Translation

The Rolex on my wrist is now boring  
Our songs are taking over the streets  
This is too much of a crime to be seen as a game  
Don't let'em in let'em in  
get out my zone  
We we we never know  
We we we never talk  
We we we criminal  
Don't let'em in let'em in  
get out my zone  
Who 3fanxy's in here  
Holding a mic instead of a shovel, only digging at one spot, idiots  
What we do? Whatever we release, boom  
In a few years, we naturally took over the media  
When we're together, even if we shut up, we get content  
What happened in 1992?  
Of course, flaunting is the best topic  
Kids, if you're mad, go online  
Anybody anybody  
Why would the objet wanna be the main spot?  
Switch the words in generation and you get the mainstream  
Three fools became your future dream  
Not cocky, the line of flow is on the stage  
And also in the studio, life of one out of 50 million  
Hakuna Matata, spread your wings  
Get money get famous  
Yeah it's our times  
Look at where you wanna lay down before you lay down  
Ya'll fakke bishes tryna act like me  
I just sit and space out on my sofa but (it spills down)  
Mula mula we gon pour up  
Murder murder, hush your breath  
The air above your head feels so fresh  
Nobody can't come over here  
Bermuda  
We're yellow people but I got black soul  
Always on the trending search, no manners when it comes to skill  
Starting a fight is the goal of the reviews or interviews

So cute, when you're feeling down, this is perfect, aight  
What makes you upset? My success is first  
There was no evil intent but I'm sure of my success  
Many stages, many cams, many fans  
Tickets are sold out, right away I'm starting on my next project  
Imagined it  
The scene from above is beautiful  
But I came from the bottom so I know the dangers of being up high  
Overworking is my natural state, I won't put in a ringer  
If returning my vacation days are bribery, then I'm doing something illegal right now  
Who paint a perfect picture  
Just a part of the big picture  
My every move is scrutinized by the public  
I'm not done yet  
All these controversies are only helping my resilience  
I can't hold back, I'm sso fanxy  
Look at where you wanna lay down before you lay down  
Ya'll fakke bishes tryna act like me  
I just sit and space out on my sofa but (it spills down)  
Mula mula we gon pour up  
Murder murder, hush your breath  
The air above your head feels so fresh  
Nobody can't come over here  
Don't test us  
There's no proof anywhere  
Not interested  
Get your casket  
You've gotten yourself in an unlucky triangle  
There's no exit  
This ocean was made from the overflowing of your jealousy  
If you jump in cuz it looks fun, you'll be dead  
Three big lines are drawn  
Put to sleep your crooked conscious  
Put the ZZZ above your head  
Mula mula we gon pour up  
Murder murder, hush your breath  
You get cold feet, wash your hands, then mission clear  
Who's more gorgeous  
New world order that's we are  
The Rolex on my wrist is now boring  
Our songs are taking over the streets  
This is too much of a crime to be seen as a game  
Don't let'em in let'em in  
get out my zone  
We we we never know

We we we never talk  
We we we criminal  
Don't let'em in let'em in  
get out my zone
