

Television

Sunny Day Real Estate

She's always around and under my skin
Watching her move, how she tells a story
It's only a dream of lovers and lies
She's cruel and she's free like television
She's in my head like television
We fall into bed, our tongues are tied
Her lips and her eyes are so disarming
And when we embrace, she pulls me inside
I wake up alone with television
Crawl around the story
Oh, how her waves wash over me
Lost inside her story
She shows me the world
I see through her eyes the beauty
Of brave new understanding
It's only a dream of lovers and lies
I carry with me in all my vision
She's always around and under my skin
She's always around and under my skin
Watching her move, how she tells a story
It's only a dream of lovers and lies
She's cruel and she's free like television
Crawl around the story
Oh, how the waves wash over me
Lost inside her story
She's in my head like television
Like television
