Living Like a Dog

Priestess

When I'm alone, I roll in my limited hold
When I'm alone, I roll and my limit is gone
Well, I've been living like it's highDo what my heartbeat warns
When my wager is high
Well, Ive been high before
And you can't stop me on my rollI was a lonely one and I'm down on my own
Out in the morning sun and I'm down to the bone
And I've been living like a dogDo what my heartbeat warns
When my wager is high
Well, Ive been high before
And you can't stop me on my rollWe did one thing right and we left it alone
We did one thing wrong and its often at home
And I've been livid, hot and highI've been a lonely one
Never waited before
But I've been high before
And you can't stop me on my roll
