

# Masterpiece

[Rickie Lee Jones](#)

Could paint the sun and the moon  
And the stars straight down from the sky  
Carve your likeness in stone  
Down to the light that shines in your eyes  
Build a church in your honor  
Stained glass windows facing east  
Loving you is my masterpiece Love you for who you are  
I love you for who you may never be  
From downtown all the way up to 142nd street  
And all of my possessions mean less than the very least  
Loving you is my masterpiece There's no time like now  
There is no place like here  
So throw your loving arms around me dear  
And i'll lean on you like a beggar  
Leans upon the moonlit streets  
Loving you is my masterpiece
