

The Daze

Jandek

These are the Daze my friend
We're so far from the end
But we can't wait forever and a day
 Forever and a Day
 One for your City
 Two if you're prissy
 Three for the raw real homie
 Rollin' wit' me
Four's like the voice in my head
 Getting dizzy
 Five get it so live
 The cops come & get me
 Six for the politrix
 Seven call the Reverend
 Eight DNA certain way
 You a felon
 Nine feeling fine
 Even when the sun shady
 Ten that's a dime
 Goapele do it crazy
If you miss me when I'm gone
Just know riding on a sky plain
 You never know
 I could be wrong
 Sometimes I'm weak
 When I feel strong
 Push on
 Be strong
 Don't wait
 Lean on
 Sometimes
 Pray on
 Hold on
 Because
These are the Daze
You gotta go for broke
I'm taking all my chances
And if you're scared of transit...
 Run for cover

Light is fading
It's getting dark
The sun is fading
Oh they told me
Live today
Like your gonna live forever
Tomorrow paves the way
For the rest of your life
Even if we lose some along the way
It's not worth the hate
No time to hate
Black prophet
Still grandma collar poppin
Do anything for a twenty dollar profit
They push into yo kitchen til yo momma holla stop it
If it ain't first class
Then I'mma try the cockpit
Had some ups & downs
Been dumped around
It's nothing
"cause we ain't sufferin' now
For life we lusted
In God we trust
But now don't discuss it
We going for bust
Hold tight
It's not
Too late
Take it
Right now
It's in
Your hands
Because
These are the days we gotta go for broke
I'm taking all my chances
And if you're scared of transit...
Run for cover
Light is fading
Its getting dark
The sun is fading
