

# All Around Us

## Pat McGee Band

We cannot feel it but we know it's all around us  
We cannot see it but we know it's looking back at us  
It's the sense of all senses touching us the kindest of way  
Don't bother me to show it's always been the same wayAnd we're trying to get there tomorrow  
Every day is worse than it seems, alright  
There can be a better way I know  
There can be another way you've got to show  
All around these towns, every day is worse than it seemsWe cannot feel it but we know it's all around us  
We cannot find it but we know we like the shape of it  
We put in the first time is what can expect  
Back from all the expectations that bring us back to home baseAnd we're trying to get there tomorrow  
Every day is worse than it seems, alright  
There can be a better way I know  
There can be another way you've got to show  
All around these towns, every day is worse than it seemsWe cannot feel it but we know it's all around us  
We cannot find it but we know it's been lost in us  
It's the sense of all senses touching us the kindest of way  
Please don't bother me to show these have been the strangest daysAnd we're trying to get there tomorrow  
Every day is worse than it seems, alright  
There can be a better way I know  
There can be another way you've got to show  
All around these towns, every day is worse than it seemsEvery day is worse than it seems  
Every day is worse than it seems
