

Song of the Redeemed

Charlie Hall

We see it in the darkest place
that love is in your powerful name
we shine the light of beauty and grace
living in the name that can save

we sing to you the song of the redeemed
you beautified our hearts and made us clean
you rescued us from death and set us free
we sing to you the song of the redeemed

we see it in the darkest place
cause love is in your powerful name
we shine the light of beauty and grace
living in the name that can save

Yeah we see it in the darkest place
cause love is in your powerful name
we shine the light of beauty and grace
living in the name that can save

we sing to you the song of the redeemed
you beautified our hearts and made us clean
you rescued us from death and set us free
we sing to you the song of the redeemed

we see it in the darkest place
cause love is in your powerful name
we shine the light of beauty and grace
living in the name that can save

Yeah we see it in the darkest place
cause love is in your powerful name
we shine the light of beauty and grace
living in the name that can save

we sing to you the song of the redeemed
you beautified our hearts and made us clean
you rescued us from death and set us free
we sing to you the song of the redeemed

and we adore you and before you
forgiven and redeemed
and all races from all places
around the cross we sing

we sing to you the song of the redeemed
you beautified our hearts and made us clean
and you rescued us from death and set us free
we sing to you the song of the redeemed

we sing to you the song of the redeemed
you beautified our hearts and made us clean
you rescued us from death and set us free
we sing to you the song of the redeemed

we are yours
we are yours
we are yours
we are yours
we are yours
we are yours
we are yours
we are yours
we are yours
