Waiting to Know You

The Fiery Furnaces

I'm...waiting to know you by the way
Send up the balloons, its right to assume yea
I'm waiting to know you by the way
Set up to the pier, wait till you get here yeaAnd when I'm about to give up hope
Denote with my telescope
I'm standing gone the Navy yard
To see could that one for me beBaby I know,
Where did you go?I'm...waiting to know you by the way
Flash like a cape, misses your way yea
I'm waiting to know you by the way
The drecche of the lake, all that you shake yeaAnd when I'm about to give up hope
Denote with my telescope
I'm standing gone the Navy yard
To see could that one for me beBaby I know,
Where did you go?I'm...waiting to know you by the way
Send up the balloons, its right to assume yea
I'm waiting to know you by the way
Flash like a cape, misses your way yeaAnd when I'm about to give up hope
Denote with my telescope
I'm standing gone the Navy yard
To see could that one for me beBaby I know,
Where did you go?Baby I know,
Where did you go?
