Moving and Grooving

Dr Meaker

Can you feel the music?
Feelin' kinda groovy
Do ya like the rhythm?
Movin' to the beat
Do ya need a reason?
You know you wanna be here, yeah
Ladies, move your hips now
Fellas, step in time

(x2)
Go put your hand in my pocket, I got somethin there that's got me
I can't move until you take this thing from me

(x2)
Moving and grooving
Moving like ya doin'
Moving and grooving, I see you

Can you feel the music?
I know you love this music
Let's all get wild now
I wanna dance with you
I can see you moovin'
Winding to this bassline
Got the ladies grinding
And the fellas right behind

(x2)
Go put your hand in my pocket, I got something there that's got me,
I can't move until you take this thing from me

(x2)
Moving and grooving
Moving like ya doin'
Moving and grooving, I see you

We gotcha moving and grooving
We gotcha moving and grooving
We gotcha moving and grooving

We gotcha movin?, badededededa

Can you feel the music?
Feelin' kinda groovy
Do ya like the rhythm?
Movin' to the beat
Do ya need a reason?
You know you wanna be here, yeah
Ladies, move your hips now
Fellas, step in time

(x2)
Go put your hand in my pocket, I got something there that's got me,
I can't move until you take this thing from me

Move, move, move
Move, move, move.
