

Something That We Had

[Jimmy Nail](#)

Words by jimmy nail

Music by jimmy nail/andy caine/danny schoggerOn a day like today I could blow my cares away

Not a sign of a cloud to make me blue

But then you said goodbye, took the sun out of my sky

When you told me that you and me were throughCatch a falling star, fall down from above

Put it where you are, wrap it up in loveOn a day like today I could blow my cares away

Not a sign of a cloud above my head

But then you said goodbye, took the sun out of my sky

When you told me of something that you'd saidTake me as I am, it's all I have to give

Give you all I have, for all the days I liveOn a day like today, I could blow my cares away

Not a sign of a cloud to make me sad

But then you said goodbye, took the sun out of my sky

When you walked away from something that we had
