Gone By December

Edgewater

She says it's hard to say goodbye
It's not forever lasting
Just pull a smile on out
How come you left me here standing
I'm so lonely
Calm down I'll be right back
No, please don't forget me here
'Cause I'm mourning after you
I can't help this anymore
You're so perfect I know
But I am down
She whispers are her thoughts
Right into my head
Moonlighting, as she drifts, she fades
Fades into shadows
How come you left me here standing

I'm so lonely
Calm down I'll be right back
No, please don't forget me here
'Cause I'm mourning after you
I can't help this anymore
You're so perfect I know
But I am down
She said that she'll run away
She said that she'll run away
She said that she'll run away
'Cause I'm mourning after you
I can't help this anymore
You're so perfect I know
But I am down
