

# Chance to Desire

## Radiator

Following melodies  
Sailing about the seas  
Trying to find a land My ship gets to the shore  
I walk into your door  
Can't you understand All I want is love  
All I want is love  
I can't get enough  
I can't get enough All I want is love  
All I want is love  
I can't get enough  
I can't get enough So right is wrong to stand  
Stay while I can feel your hand  
I wished a dream would last Searching for lover nights  
I find it through disguise  
Sometimes I go too fast All I want is love  
Ah... all I want is love  
I can't get enough  
A h... I can't get enough... All I want is love  
Ah... all I want is love  
I can't get enough  
Ah... I can't get enough... REFRAIN:  
Come on, come on, come on, come on  
Give a chance to desire  
Come on, come on, come on, come on  
Give a chance to desire  
Come on, come on, come on, come on  
Give a chance to desire  
Come on, come on, come on, come on  
Give a chance to desire You are the one  
I could reach for the sun  
But you let me go higher I'll maybe believe when I  
Find you won't leave  
Give a chance to desire
