Big Black Nothing

Conor Oberst

Big black nothing fooling everyone
Big black nothing put a halo 'round what you've done
'Cause a big black nothing is coming upWould you be my, would you still be my friend?
If I told you it's all just pretend
'Cause a big black nothing is not the endSing me something, something I can feel
Sing it louder, the whole world wants to hear
'Cause a big black nothing was made to appealLock the doors, hide the keys
Flipping channels through the streets
All this news just makes me scared of you and you and youBoard up the windows, unplug the phone
Make it look like nobody's home
Well, I'm real scared but so prepared for the worst, yeah the worstBig black nothing fooling everyone
Big black nothing put a halo 'round what you've done
'Cause a big black nothing
