

Further Down the Road

Bernard Fanning

I'm not afraid to say, I've had my ups and downs
On any other day, I'd run me out of townNow I'm standing in the middle of a good dream
 Tryin' to figure what I do and don't need
 Hopin' I can give myself a good chance
Not too proud to show the spirit that I once hadI guess we'll wait for the night to fall
 We'll sleep right through to the breaking dawn
I guess we'll find out, further down the roadWill I have the strength to take the opportunity when it comes?
Am I laid to waste if I lose my nerve and run?Now I'm standing'in the middle of a good dream
 Waitin' on a number that I can't reach
 Hopin' I can give myself a good chance
And not too proud to say I'd love a little romanceI guess we'll wait for the night to fall
 We'll sleep right through to the breakin' dawn
I guess we'll find out, further down the roadOoh, well I never let love sink its claws in me
Ooh, all I ever asked was happiness for youNow I'm standin' in the middle of a good dream
 Waitin' on a number that I can't reachI guess we'll wait for the night to fall
 We'll sleep right through to the breakin' dawn
I guess we'll find out, further down the roadThis feeling's worth its weight in gold
 Just praying for it to unfold
I guess we'll find out, further down the road
