

# Broken Drum (Boards of Canada remix)

Beck

I see you there  
Long black hair  
Your eyes just stare  
Your mind is turning

You know I'll laugh  
I won't take it back  
I've seen your eyes  
I know what your thinking

We'll shoot our guns  
We'll have fun  
Don't ever doubt it

And when I say  
"Fare thee well,  
My only friend"  
Oh, how the days go  
Oh, how the days go

Your setting sun  
Your broken drum  
Your little drugs

Never forget you  
Never forget you  
Never forget you
