## Bloc Party.

And you're tired of your Mum
And you're tired of your Dad
Got you jumping through hoops
Got you shaving your legs
Let it pass, let it pass, let it pass over youAnd you're tired of your face
And you're tired of your nose
Got you jumping through hoops
Got you shaving your legs
Let it pass, let it pass, let it pass over youAnd your nose is bleeding
And your nose is bleeding
You've been lying to me
And your nose is bleeding
And your nose is bleeding
You've been lying to meThere will be no hesitation
There will be no confrontation
There will be no indication
There will be no cause
There will be no exultation
There will be no justification
There will be no way at allAnd your nose is bleeding
And your nose is bleeding
You've been lying to me
And your nose is bleeding
And your nose is bleeding
You've been lying to meCome back to me the the way you were
The way you were when we were young
I'm trying to tell you everything
I'm trying to tell you everythingI can heal the blind
I can cure the sick
I can heal the blind
I can cure the sick
I can say the right things
I can say the right thingsWhere d'you get so cruel?
Where d'you get so cruel?
Where d'you get so cruel?
Where d'you get so cruel?
Where do you go?
'Cos you're never hereAnd your nose is bleeding
And your nose is bleeding

You've been lying to me
And your nose is bleeding
And your nose is bleeding
You've been lying to meCome back to me the the way you were
The way you were when we were young
I'm trying to tell you everything
I'm trying to tell you everything
