You Made This Fool Become A Man

Ryan Malcolm

Traveling on the road to nowhere
And I was driving much to fast
Trying to be ahead of things
But I always ended lastI'm a big city kid with a big city life
That's all I know
I'm aiming for the sky
But I'm always hittin' lowYou came in and held me out
Just like a miracle
You gave me strength to realizeOh, when I had nowhere else to turn
You taught me lessons to be learned
You made this fool become a man
(You made this fool become a man)When I was down, when I was out
When I just couldn't understand
You made this fool become a man
(You made this fool become a man)Love's the only reason
That could change a guy like me
She makes me see the small things
That I didn't get to see beforeYou came in and held me out
Just like a miracle
You gave me strength to realizeWhen I had nowhere else to turn
You taught me lessons to be learned
You made this fool become a man
(You made this fool become a man)When I was down, when I was out
When I just couldn't understand
You made this fool become a man
(You made this fool become a man)She's been movin' through me
Now I'm never lonely
Time is mine foreverWhen I had nowhere else to turn
You taught me lessons to be learned
You made this fool become a manWhen I was down, when I was out
When I just couldn't understand
You made this fool become a man
(You made this fool become a man)When I had nowhere else to turn
You taught me lessons to be learned
You made this fool become a man
(You made this fool become a man)When I had nowhere else to turn
You taught me lessons to be learned
You made this fool become a man
(You made this fool become a man)When I was down, when I was out

When I just couldn't understand
You made this fool become a man
(You made this fool become a man)
