

St. Patrick

PVRIS

I know it's chemicals that make me cling to you

And I need a miracle to get away from you

I know it's chemicals

and I need a miracle

And I'm not spiritual

But please stay

'Cause I think you're a saint and I think you're an angelI said

You give me something to talk about, something to talk about

I said

You give me something to think about that's not the shit in my head

You're a miracle

You're a miracle

A miracleTransparent hands were at my neck

But I love the way you let me breathe instead

Take in your chemicals

You are a miracle

And I'm not spiritual

But please stay

'Cause you're a glimpse of bliss, a little taste of heavenI said

You give me something to talk about, something to talk about

I said

You give me something to think about that's not the shit in my head

You're a miracle

You're a miracle

A miracleI need a miracle to bring me back to you

I know you're gone now but I still wait for you
