# That day

## Milkhouse

Rain falls, it don't touch the ground
I can recall an empty house
You say I'm fixed but I still feel broken, broken
Lights on, lights off, nothin' works
I'm cool, I'm great, I'm a jerk
I feed myself lies with words left unspoken
Gonna be okay, gonna be okay, one day, one day
That day never came, that day never comes
I'm not lettin' go, I keep hangin' on
Everybody says that time heals the pain
I've been waitin' forever, that day never came
You said I'd be comin' home
They said he's fine left alone
The screams in my mind
I keep them a secret, a secret
Doctors and your promises
Psychics, healers, I've seen the best
Whatever they sell, sure know how to deal it
Gonna be okay, gonna be okay, one day, one day
That day never came, that day never comes
I'm not lettin' go, I keep hangin' on
Everybody says that time heals the pain
I've been waitin' forever, that day never came
Gonna be okay, gonna be okay, one day
That day never came, that day never comes
I'm not lettin' go, I keep hangin' on
Everybody says that time heals the pain
I've been waitin' forever, that day never came
That day never came
