Casey

Darren Hayes

Driving in your car with the windows down
And the beat up stereo
Struggle with this town

'Cuz you love to hate it but hate it to let it goAnd we're all alone

And so tired of being underrated

So don't take me home

'Cuz I feel alive when you come and save meA yellow car

Speeding down the Southside freeway

We will rewrite this movie

Make it end like we want it to And Casey when you go, can you come and find me?

Wanna be beside you, when you leave this town

I've been waving goodbye, pretending not to cry, I wanna be someone

If you take me away all the pain will change into a memory

Of when we were amazing 1989, summer had hit but it was not moving

What is it with this town?

Every time we win, it just feels like losing

We were never gonna fit in

I was a mixed up kid and you were my sanityIn a yellow car

We don't even have to go far

'Cuz that song you're playing

Sounds like peace on the radioAnd Casey when you go, can you come and find me?

Wanna be beside you, when you leave this town

I've been waving goodbye, pretending not to cry, I wanna be someone

If you take me away all the pain will change into a memory

Of when we were amazing, when we were amazing I know things will change, Casey stay the same

Take me away

Oh, we don't have to go far

Yeah, we don't have to go far, I knowOh, Casey when you go, can you come and find me?

Wanna be beside you, when you leave this town

I've been waving goodbye, pretending not to cry, I wanna be someone

If you take me away all the pain will change into a memory

Of when we were, when we wereCasey when you go, can you come and find me?

Wanna be beside you, when you leave this town

I've been waving goodbye, pretending not to cry, I wanna be someone

If you take me away all the pain will change into a memory

Of when we were amazing, when we were Driving in your car with the windows down

And the beat up stereo, ohI wanna, I'm gonna, I wanna be someone

I wanna, I'm gonna, I wanna be someone

I will run to you, I will come to you

I will run to you, I will come to you

So come on and get me, so come on and rescue me, ohI will run to you, I will come to you

I will run to you, I will come to you

Coming through the sky like a satellite

Like a radio wave, a meteorite
