

# Choose Me

## Lattice Crawford

All of this work  
That I have in my hands  
Trying so hard, to carry out your plans  
This world is so cold..mmm  
Living in a dry land  
You made us happy he salt of the earth  
So why are so bland

In need of seasoning  
And an outpouring of more of you  
I just wanna help  
So tell me what to do

I know that..many are called  
But I wanna be chosen  
There's a big difference  
It's not about recognition  
Choose me, use me  
I know on the outside I don't look like much  
But with your touch I'll be better  
Choose me, sin me  
I don't care about who knows my name  
Just want my words to bring you the fame

I'll go..Moses like eloquent speech  
But you still chose him  
David tended sheep, but he slayed a giant  
Because of you Joseph went from the pit  
Into a grand palace  
You showed the best qualified to show your greatness  
So here I am

Many are called, but I wanna be chosen  
There's a big difference  
It's not about recognition  
Choose me, use me  
I know on the outside I don't look like much  
But with your touch I'll be better  
Choose me..lord, sin me  
I don't care about who knows my name

Just want my words to bring you the fame  
Choose me, use me  
I don't care about who knows my name  
Just want my words to bring you the fame  
Choose me lord  
Use me

I know on the outside I'm filthy and I'm dirty and I don't look like much  
But if you touch me I will be better  
Choose me lord, lord choose me sin me use me lord I'll go  
I don't care about who knows my name  
If I never get the glory, I just want my words to bring you the fame  
Choose me..lord, use me sin me i will go  
I know on the outside I don't look like much, but if you touch me I will be better  
Choose me lord, lord sin me lord  
I don't care about who knows my name  
If I never get the glory, I just want my words to bring you the fame  
Lord I will go
