

# We Got the Beat

Talib Kweli

Yeah! Come on! What it is? It's the P-L-A -N-E-T R-O-C-K  
Kweli, B-K S E-L A- V I  
You could tell I be Hell a free like college radio  
W Q H T gonna play me though  
This hot shit is to fly like the cockpit  
Got spit like a french kiss chicks lock lips  
Coming from the deep black like the Loch Ness  
Now bring apocalypse like the heart of darkness It's like the heart of the artist become a target  
Pop music is the black market  
Recently we witness bizarre shit  
The war hit the same time as sars hit  
Terrorists send bombs at the concert  
The show must go on yo regardless  
We're just made hip hop kid to pop shit  
And get on some rock shit and start a mosh pit Yeah we got the beat to make the planet rock  
Come on, come on, come on, come on  
Yeah we got the beat to make the planet rock  
Come on, come on, come on, come on  
Just one We got the planet to rock, kweli's standing on top  
I'm like a panther when I answer to cops  
And bust back before the man get a shot  
And the blood on their veins run cold like the cannibal lox  
And bring heat like the blood of the mammal that's hot  
And keep fighting like the boy with the mechanical heart  
And watch time count down on the hands of the clock  
Till the hour when the pinnacle start Wow, and go fast like the bullet that ran through the dark  
The hollow tip ripped a man apart, blaow  
Yo these soldiers die in petroleum wars  
Think they fighting for the holliest cause  
It don't matter if you muslim, hebrew, or you a christian  
Information is the newest religion, is a true way of living  
Ain't no rule to a surpestitution stop me  
If you're going through with my mission come on man We got the beat to make the planet rock  
Come on, come on, come on, come on  
Yeah, we got the beat to make the planet rock  
Come on, come on, come on, come on  
Just one We got the beat to make the planet rock  
Come on, come on, come on, come on  
Yeah we got the beat to make the planet rock

Come on, come on, come on, come on
