Out There (David Moralee Remix) [Radio Edit]

DJ Encore

You must be out there
Every time I've got an hour on my hands I hope you feel me
Every now and then I understand the fact that you believed me
How can I go on
If you don't come along to set me off
I don't know nothing
How can I move on when I am half as strong
Without your strength
I don't know nothing
Cause you're not in my world to ease my worries
And you can't be the one I turn to
who's gonna watch over me if not you
Will your memory live on inside me
Ever since you went away I wondered why the world kept turning
Every time I think of you I feel the flame that keeps on burning
How can I go on
If you don't come along to set me off
I don't know nothing
How can I move on when I am half as strong
Without your strength
I don't know nothing
Though you're not in my world to ease my worries
And you can't be the one I turn to
you're gonna watch over me I feel you
Cause your memory lives on inside of me
You must be out there
Though you're not in my world to ease my worries
You must be out there
And you can't be the one I turn to
You must be out there
you're gonna watch over me I feel you
You must be out there
Cause your memory lives on inside of me
You must be out there
