

Changing Times

Axel Rudi Pell

On the loose, but hearin' gunfire
To time to cruise, leaving for our destiny
Cold hearted city, don't wanna stay
Undeserving of pity, better get out our way
Out of the dark and into the light
Moving shadows, full moon on the rise
I wanna know, where we have to go
A thunderous roar, we're changing times
I wanna know, where we have to go
A thunderous roar, we're changing times
In a different time, a cry for solutions
Fallin' out of the ski, losing control
All roots of evil, appearing at once
Don't dance with the devil, cause you'll have no chance
