Love It Gone

Luke Bryan

I know, I know it, baby
Sounds like your day's been crazy
I just wanna hold ya
All the weight that's on your shoulders
Anything that's wrong
Let me, let me love it goneCome on and trust me, honey
I can turn those raindrops sunny
Let me untie that tangle
Put on that kissing angel good morning song
Let me, let me love it goneLittle barefoot dancing
Little kissing in the kitchen romancing
Got a whole lot of love that I've been saving
And a bottle of wine that's been waiting
Long time for a night like this
Whatever's wrong, shake it off your list
Girl, I want, I want I wanna get lost in your lipstick
Oh, baby, let me love it, let me, let me love it
Let me, let me love it goneWhy don't you slip into
Little something off the secret menu
Kick back, and let down your hair
Yeah, that one right there looks so damn good on
Let me, let me love it goneLittle barefoot dancing
Little kissing in the kitchen romancing
I got a whole lot of love that I've been saving
And a bottle of wine that's been waiting
Long time for a night like this
Whatever's wrong, shake it off your list
Girl, I want, I want I wanna get lost in your lipstick
Oh, baby, let me love it, let me, let me love it
Let me, let me love it goneSo longThis night looks good on you
Let me love it, let me, let me love it
And every little inch of you
Let me love it, let me, let me love itLittle barefoot dancing
Little kissing in the kitchen romancing
I got a whole lot of love that I've been saving
And a bottle of wine that's been waiting
A long time for a night like this
Whatever's wrong, shake it off your list
Girl, I want, I want I wanna get lost in your lipstick

Oh, baby, let me love it, let me, let me love it
Baby, let me love it, let me, let me love it
Let me, let me love it gone
Baby, let me love it goneLet me love it, let me, let me love it uh
Let me love it, let me, let me love it
Baby, let me love it gone
