

Beautiful People (feat. Thom Yorke)

Mark Pritchard

I'll smile careful
Beautiful people
You know you're there
I'll smile careful We can't go back
To know you're there
I'll smile careful
'till the love is ours
'till the love is ours A flap of the wings
And the chaos that it brings
I killed my love
Please come to see
To lose no time 'till the light goes off
'till the light goes off
Flies out of the window
But angel stroke your hair
To know you're there
We can't go back (the morning light)
(the morning light)
(the morning light)
I'll smile careful
Beautiful people To kill for most
(the morning light)
To lose your ghost
I'll smile careful
To know you're there (the morning light)
And I am fearful
The morning light
To the faces I fly
To know you're there
We can't go back I planned everything
I planned everything
I'll smile careful
If I had to go
If I had to go
To lose yourself
