Into The Darkness

Delta Spirit

So whats the part that you're playing
Should I have guessed who you're blaming
Do I know him
Is it me you're naming

You ain't got time
You ain't got nothing
You live on a rock all covered in ocean
Well I'll be dead in a few years time
Well I am fine

And into the darkness we all go
And out of the white light and friends you know
We'll be spread out like a mushroom cloud
Spread all around

We're all just sheep being herded
Well ain't that the truth
It depends how its worded
We'll pay no mind to the others in line
You're hurting

(Oh no, oh no, oh no, oh no)

All man's thoughts
can kill you like cancer
They smash through your head like a German panzer
It won't be long till we'll all be gone

And into the darkness we all go
And out of the white light and friends you know
We'll be spread out like a mushroom cloud
Spread all around

Spread all around

(Oh no, oh no, oh no, oh no)
