

Marie

Ellegarden

Marie
Seventeen nights away
She's leaving
Cause everything she found was fake

Oh tell me why
I don't know why
Why does she have to leave
No one has told me
She's ended up there

All I can do is to keep being here

Marie my firend
Marie my friend
I sing for you
Marie my friend
Marie my friend
This is your song

Seventeen skies away
She's falling
Cause everything she had has gone

Oh tell me why
I don't know why
Why does she have to leave
No one has told me
She's ended up there

All I can do is to keep being here

Marie my firend
Marie my friend
I sing for you
Marie my friend
Marie my friend
This is your song

Couldn't take your hand

I should've done this before
I'm so stuck now
You changed my world
Don't go away like this

Oh tell me why
I don't know why
Why you have been so strong
No one has held you
But you spread your wings
She's ended up there

All I can do is to keep being here

Marie my firend
Marie my friend
I sing for you
Marie my friend
Marie my friend
This is your song
