Words for You

Brandtson

everything about you is a picture worth a thousand words.
try as i may i try in vain.
there's more to you than i could ever hope to explain.
i don't think you know.
i'll never be the same again.
purity stood in front of me and said "i'm clumsy and my back hurts"
and i thought "you're about as beautiful as God's creation gets"
and i've seen oceans and sunsets that took away my breath.
and you remind me of everything that's precious in His sight
and i don't think you'll ever realize
just how much you've touched my life.
everything i thought i knew redefined in the light of you.
though the white it burns my eyes.
all my shadows fall behind me.
i don't think you know why i'll never be the same.
try as i may i try in vain.
there's more to you than i could ever explain.
i can't find the words for you
