

I Am the Only Jesus...

Shamel Shiloh

Ohhh! ...that's that Jesus joint!

Rip off shirt â€“ throw the dust â€“ you gonna remember this
Iâ€™m the only Jesus with a mic in clinched fist
Tension is so thick that you could cut with a knife
Iâ€™m the only Jesus not saying that Iâ€™m Christ
Put on his skin Iâ€™ma ride the old man is dead
Verbally confessed the resurrection yo he bled
in the flesh â€“ Iâ€™m just a man â€“ homie take a stand
Or fall for anything â€“ getting swallowed by the land
I know a gang a Christians but fruit is what they missing
Just call it like I see it- so donâ€™t call this dissing
say I canâ€™t tell you nothing, well let me tell you something
Double minded ways will break you down to nothing
Stop frontin on the rose of Sharon letâ€™s get it poppin
Authentic reflection of Christ shorty aint no stopping
No half stepping Iâ€™m a use my brain as a weapon
Holy Spirit fill me as I pray for my section

(Repeat)

Iâ€™m the only Jesus
That some will ever see

A yo man from block never step in a church
He to busy on the corner clocking putting in a work
plus heâ€™s living in a area where everybody sinning
pops packs a pistol, moms seeking lotto winnings
and his sis well sheâ€™s working for this crooked cop
and now feds got word â€“ and locking whole block
it just a vicious cycle â€“ sin begat sin
it time to infiltrate be Jesus with Skin
look at me now shining with the light of Christ
if you died in your sins you going to hell tonight
Did you know that the Father gave His only begotten son
So you donâ€™t have to burn â€“ you can live forever son
Lend a hand to elderly or read â€“em book
go to the store for â€“em â€“ that would be a good look
Homeless man in the street â€“ taking a good meal

Go ahead a spare some change so he donâ€™t have steal

(Repeat)

Iâ€™m the only Jesus
That some will ever see

Iâ€™m the only Jesus some cats will ever see
Peep the mathematics sixty six degrees
Tighten sight belt take a ride with me
39 plus 27 holy chapter to read
Step out your comfort zone “ hang up your iPhone
Lend hand to your man so can make it home
Home is heaven and heaven is paradise
Street paved with gold and everybody shine bright
Little cousin so curious about religion
I gotta model after Him (Jesus), (be a) good example children
Something like pilgrim on my holy travels
Exposing phony dudes like rocks in gravel
One hundred percent Christian, no compromise
Bring it if you want it son itâ€™s do or die
Every word so fresh every so word bless
When I got the spirit in tell me who (want to) wan test

Bo bo bo bo bo bo
