Those Were the Days (Acoustic Version)

Marc Scibilia & StadiumX

These are the nights I won't get over
These are the songs I won't forget
These are the places we grew up
These are the people that I love
These are the days we'll talk about when we sayThose were the days I won't get over
These are the nights I won't get over
These are the songs I won't forget
These are the places we grew up
These are the people that I love
These are the days we'll talk about when we say"Those were the days," yeah
We'll talk about when we say, "Those were the days"
These are the streets I'll walk forever
Even if only in my mind
These are the hands I hold so close
So if I may make one last toast
Here's to the days, we'll talk about when we sayThose were the days, I won't get over
These are the songs I won't forget
These are the places we grew up
These are the people that I love
These are the days we'll talk about when we say"Those were the days," yeah
We'll talk about when we say, "Those were the days"We'll talk about when we say, those were the days
That live on even after we're gone and
The places we go won't replace where we're fromSo find someone you love and tell 'em
These are the days we'll talk about when we say
"Those were the days"
We'll talk about when we say, "Those were the days"I won't get over
These are the songs I won't forget
These are the places we grew up
These are the people that I love
These are the days we'll talk about when we say"Those were the days," "Those were the days"
We'll talk about when we say, "Those were the days
We'll talk about when we say, "Those were the days
