Everyday

Incognito

Oh, yeah
Hey baby, ooh
Come onCome over here, closer my dear, wrap me in your tenderness
There's no place else, I'd rather be, than here with you my love
So strong, when we are together, so real, I've never known it better
A love like ours can surely last until the end of timeEveryday in every way, my joy is growin' wilder
Every day I'm glad to say, this love has taken over
Every day we'll find a way, keep heart and soul together
Every day you're givin' me, you're givin' me the real thingAs mornin' greets us with its song, I'm woken by your sweet caress
There in the sunshine of your smile, I find such happiness
Your love is all that I desire, no one, could give me greater pleasure
A love like ours can surely last until the end of time, oh babyEveryday in every way, my joy is growin' wilder
Every day I'm glad to say, this love has taken over
Every day we'll find a way, keep heart and soul together
Every day you're givin' me, you're givin' me the real thingOh, ooh, what you did to me baby?
Oh, you know meCome over here, closer my dear, wrap me in your tenderness
There's no place else, I'd rather be, than here with you my love
So strong, when we are together, so real, never known it better
A love like ours can surely last until the end of timeEveryday in every way, my joy is growin' wilder
Every day I'm glad to say, this love has taken over
Every day we'll find a way, keep heart and soul together
Every day you're givin' me, you're givin', you're givin' me the real thingEveryday in every way, every day I'm glad to say
Every day we'll find a way, every day you're givin' me
Everyday in every way, every day I'm glad to say
Every day we'll find a way, every day you're givin' meEveryday in every way, every day I'm glad to say
Every day we'll find a way, every day you're givin' me
Everyday in every way, every day I'm glad to say
Every day we'll find a way, every day you're givin' me
