

# Sound & Color

## Alabama Shakes

A new world hangs outside the window  
Beautiful and strange  
It must be I've fallen awake  
I must be  
Sound and color with me for my mind  
And the ship shows me where to go when I needn't speak Not far now...  
Not far now...  
Not far now...  
far far now...  
far far far far now...  
far far far far out.... Sound and color  
With me in my mind  
Sound and color  
Try to keep yourself awake  
Sound and color  
This life ain't like it was  
Sound and color  
I wanna touch a human being  
Sound and color  
I want to go back to sleep  
Sound and color  
Ain't life just awful strange  
Sound and color  
I wish I never gave it all away  
Sound and color  
No more to see the setting of the sun  
Sound and color  
Life in  
Sound and color  
Life in  
Sound and color  
Life in  
Sound and color  
Sound and color  
Sound and color
