

# Give

## Cold

I give you everything but me  
Everyone around you twisted fame  
I can't control you and your look  
You silly freak you super fuck  
I can't believe whose side you're on  
Everyone around you layed with dogs  
Like a bitter pill that's lost its taste  
I'll take the whole thing anyway

I don't love you, you don't love me  
But I can imagine  
Like a little thief without a key  
Well I can imagine

I'll take the world blow it away  
Send all your hopes to outer space  
I can't control you and your look  
You silly freak you super fuck  
I can't believe whose side you're on  
Everone around you layed with dogs  
Like a bitter pill that's last its taste  
I'll take the whole thing anyway

Like a hurrican that lost his speed  
I can imagine  
Like a liquored mind I've gone insane  
And I can imagine

---
