

Let Me Go Home Whiskey

Amos Milburn

Let me go home whiskey, let me walk out that door
Let me go home whiskey, let me walk out that door

I got orders from my baby

Not to come home juiced no more

I stop by a fence to visit with a friend of mine

I just dropped in for a minute

But I over stayed my time

Let me go home whiskey, let me walk out that door

Let me go home whiskey, let me walk out that door

I got orders

Don't you come home drunk no more Why oh why does whiskey

Make me lose my head

Got me sitting at a bar

When I should be home in bed

Let me go home whiskey, let me walk out that door

Let me go home whiskey, let me walk out that door

I got orders from my baby

Not to come home drunk no more Yeah whiskey every morning

Whiskey every night

As long as I got my whiskey

Everything's alright

Let me go home whiskey, let me walk out that door

Let me go home whiskey, let me walk out that door

I got orders from my baby

Don't you come home drunk no more
