Jigsaw Girl

Toadies

Give me your hand and I will hold it forever
On my nightstand, in a box with your love letters
I love you dear and I know we will not be parted
I'll keep you near, scattered round my apartment
This is not the same world you live in
And I could breathe easier once I brought you back in
You are not the same girl you have been
I promise I'll never lose you
Give me your hair, just a lock will do
An old photograph to capture the spirit of you
Well I'll keep these things wrapped up in an old cotton blouse
The one you wore that summer before your love petered out

This is not the same world you live in
And I could breathe easier once I brought you back in
You are not the same girl you have been
I promise I'll never lose you
Laid on my bed, a beautiful mess, my whole world, jigsaw girl
You gave me your hand, you gave me your hand
And I don't understand why you don't want it back
This is not the same world you live in
And I could breathe easier once I brought you back in
You are not the same girl you have been
I promise I'll never lose you, never lose you
Oh yeah tell you true I'll never lose you
