

# Let's Not Play The Game

Maxwell

So if this is you, here's what you should do  
Don't even come up, don't even say stuff  
You know it ain't true, baby, what's the use  
Let's not play the game

She used to be the dreams I'd dreamed of  
The air that I breathe, the words I speak of  
But in reality the girl was out for gold, yeah  
Honey, honey, let's not proceed

If it's because you're out for cheese  
If it's just the things associated with me  
Girl, don't play no roles

So if this is you, here's what you should do  
Don't even come up, don't even say stuff  
You know it ain't true, baby, what's the use  
Let's not play the game  
Let's not play the game  
Let's not play the game

Don't get me wrong 'cause I still believe  
Baby, baby, I still believe that love is all that ever was  
And love is all that it ever will be  
See, but it's about honesty  
So, so let's not play the game  
Let's not play the game

So if this is you, here's what you should do  
Don't even come up, don't even say stuff

You know it ain't true, baby, what's the use  
Let's not play the game  
Let's not play the game  
Let's not play the game

So if this is you, here's what you should do  
Don't even come up, don't even say stuff  
You know it ain't true, baby, what's the use  
Let's not play the game  
Let's not play the game

So if this is you, here's what you should do  
Don't even come up, don't even say stuff  
You know it ain't true, baby, what's the use  
Let's not play the game

Let's not play the game  
Let's not play the game  
Let's not play the game  
All I ever wanted to give you was a little bit of lovely  
Let's not play the game  
All I ever wanted to give you was a little bit of happy  
Let's not play the game  
No, but apparently all you really wanted was the money  
Let's not play the game  
Let's not  
Let's not play the game
