

The Clown

Rebecca Collins

Open your mind to the night
And let it all in, then we'll begin
Give me your hand for a while
I'll take you in style and show you the world
I don't lie all the time
If I give you a dose, will you come back for me?
Who cares if they know, they'll just think it's a dream
A beautiful day for sin, it's the best way to live
You can call me your clown, I'll bring you straight down
I'll tell you that it's alright
I'll tell you all night, I'll tell you all night
Don't stop now, it's just a way
A way that we play and it's always such a good time
I don't lie
If I give you a dose, will you come back for me?

Who cares if they know, they'll just think it's a dream
A beautiful day for sin, it's the best way to live
You can call me your clown, I'll bring you straight down
For a while, I'll bring you down
But in style, it's all in your mind
It's all in your mind, it's all in your mind
And I'll walk you straight out that door
I'll walk you out that door
If I give you a dose, will you come back for me?
Who cares if they know, they'll just think it's a dream
A beautiful day for sin, it's the best way to live
You can call me your clown and I'll bring you all down
Call me your clown and I'll bring you straight down
Call me your clown, call me your clown
