

One Thing

Beach House

One thing yea about you
You always yea you always know
What's happening
Perfect in the morning
And you ruin it in the evening Remarkable
When a likeness comes
You're lucky just to meet
Come down the hill
And up the stairs
She never really sleeps Closer now in the mirror
Your reflection, my reflection
Growing nearer
Pressure oh the pressure
In confession Hallelujah Remarkable
When a likeness comes
You're always out of reach
The faces in the secondhand
A little fuck off kiss Remarkable
That you're lucky just to meet
Come down the hill
'Cause she never really sleeps
