

New Day Dawn

Gentleman

If love was in your heart
You coulda find a way to brighter days
It s not to late to start
Do it as a new day dawn a new day born
Be smart
No badda try to hate or complicate
You re tearing us apart
Can you see a new day dawn a new day born
Instead a help the people burden get lighter
You have dem a train and a turn dem ina sniper
Have dem a die fa the things wha you lie fa
Your poison is more potent than a viper
People don t make that destroy cypher
So we hafi big up all the freedom fighter
Who a move righter and a shine brighter
If unno agree me seh flash up unno lighter
So many bridges dem break down
So many monuments of inspiration dem take down
Look how far dem hate grown
Now dem wanna take it to mars a place of unknown
So me wonder what s the next round
After the people dem just done vote and put dem x down
From alaska to cape town
Babylon a get shake down
If love was in your heart
You coulda find a way to brighter days
It s not to late to start
Do it as a new day dawn a new day born
Be smart
No badda try to hate or complicate
You re tearing us apart
Can you see a new day dawn a new day born
Everybody coulda nice everywhere
And everybody shoulda nice everywhere
Asking me what s the matter
My replay is that everyone wants to live better
Everybody coulda nice everywhere
And everybody shoulda nice everywhere
Everyone wants to live proper
You got the choice tell me what do you prefer
Stop fighting each other
Member me seh brother you are brother me say from another mother

You shoulda love one another
Each one teach one help one climb up the ladder
