Tania

John Rowles

Tania our song will go on forever
sweet Tania my song is for you
The shadows they fade into yesterday
my girl I see her smiling there
I turn back the years that we live again
the moments when we had our love song to share

Tania our song will go on forever
just like a clear sky of blue
Tania our hearts make music together
sweet Tania my song is for you

We stand hand in hand on the silver shore
tomorrow my ship sails away
I fly with the summer wind, so wild and free
please wait for me and soon we will be together again

Tania our song will go on forever
just like a clear sky of blue
Tania our hearts make music together
sweet Tania my song is for you
Tania our song will go on forever
sweet Tania my song is for you
