Hourglass

Lifehouse

Time traveling, moving at the speed of light
Moments we are gathering are the key to life
Your picture in a frame takes me to a place and time
When I saw the future with your heart in mine'sAnd you'll know
You'll know when I give you everything
Everything I am
And we'll go
We'll go together hand-in-hand
Slipping through the hourglass homeI can't help it if I'm wondering
Is it all just make-belief?
Everything that we've been through
Always you and meIs it so?
Is it so, when I ask myself
Could this be a dream?
We'll know
We'll know together hand-in-hand
Slipping through the hourglass homeAnd my love
It doesn't matter where we are
I lay down low, for all I am
Is all we'll beYou'll know
Yes, you'll know
When I give you everything
Everything I am
And we'll go
We'll go together hand-in-hand
Slipping through the hourglass homeTogether hand-in-hand
Slipping through the hourglass home
