Touch my body Translation:

Touch my body Body

Touch my body Body

Touch my body Body

Touch my body Oh oh~I know you want it, you come near me

I prepared some wine, sweet chocolate chocolate

You're soft and sometimes hot

My pool is for you

Na na na na na na

I see myself through your eyes that have gone red

You drive and my hands go up to the sky

Yeh baby dancing with me you're my star

Touch my body, We're going quickly, little by little

Oh everybody, Higher than the blue sky

I like this rhythm, You & I in the hot sun My body body Touch ma body

Baby so good, This feels like paradise

Baby so nice, Our own summer night

Little by little one step two step, Us in the moonlight

My body body Touch ma body Touch my body Body

Touch my body Body

Touch my body Body

Touch my body Oh oh~Candlelight is lighting up in your heart one by one

When you're tired take a rest in the red pool

Do you like my lips? Or do you like my body?

Tell me honestly, here, here, here? Or there, there, there?

Tell me I'm the only one for you right now

Stop staring at me, I'm shy, Just hug me

Tell me you love me

Touch my body, We're going quickly, little by little

Oh everybody, Higher than the blue sky

I like this rhythm, You & I in the hot sun My body body Touch ma body

Baby so good, This feels like paradise

Baby so nice, Our own summer night

Little by little one step two step, Us in the moonlight

My body body Touch ma body Touch ma body My body

My body yeah~

My body My body~

I'm with you tonight

The stars we are looking at together

I'm happier than anybody

I'm with you tonight

The stars we are looking at together

I'm happier than anybody
Touch my body
