Red Light

Siouxsie and the Banshees

She falls into frame with a professional pout
But the Polaroids ignite upon seeing their subject
And the aperture shuts, too much exposureVoyeur sucks into focus, floodlit the glossy kiss pit
But as emulsion drips down, down
The aperture shuts, too much exposureCome into this room, come into this gloom
See the red light rinsing, another shutterslut wincingThe sagging half wit sister, pretty, pretty picture
Of an ancient nipple shrinking, that Kodakwhore winking
Till the aperture shuts, too much exposureCome into this room, come into this gloom
See the red light rinsing, another shutterslut wincingSee the red light rinsing
When you see the red light rinsing, rinsing, rinsing
