

# Red Light

## Siouxsie and the Banshees

She falls into frame with a professional pout  
But the Polaroids ignite upon seeing their subject  
And the aperture shuts, too much exposureVoyeur sucks into focus, floodlit the glossy kiss pit  
But as emulsion drips down, down  
The aperture shuts, too much exposureCome into this room, come into this gloom  
See the red light rinsing, another shutterslut wincingThe sagging half wit sister, pretty, pretty picture  
Of an ancient nipple shrinking, that Kodakwhore winking  
Till the aperture shuts, too much exposureCome into this room, come into this gloom  
See the red light rinsing, another shutterslut wincingSee the red light rinsing  
When you see the red light rinsing, rinsing, rinsing
