

# Every Single Day

Serena Ryder

Holds my attention  
Sharpens my laurentien  
Makes me want apple pie  
Love has never lost me  
Nothing that can stop me  
Gotta give you one more try Yeah, every single day  
Yeah, every single day It steels your wheel, it cops your feel  
It pops your cap sits on your lap  
It fills your tank it turns your crank  
It mends your knees and turns your keys  
Cranks your chain and flouts your name  
and flies your plane and wins your game  
Cranks your cork and shines your forks  
and reigns your hell and rings your bell Yeah every single day  
Yeah every single day Found myself on all fours  
Trying to fight my own war  
Sadness in summertime  
Now it's time to make up  
Dreams won't let you wake up  
Gotta give you one more try  
Yeah every single day  
Yeah every single day  
Yeah every single day  
Yeah every single day Yeah, oh, oh, oh, oh, oh
