Virginia

The Marcus King Band

She like a shot of ginger in her whiskey
Drink moonshine to wash it on down
She not the kinda women
Ya momma want hangin round

But I love my sweet Virginia
But she dont do me no damn good
Tryin take everything I love from me
She wanna kill me cause she knew she could

Tried to take us all down in one night
Turn a friend of mine against another
left cold on the pavement, naw
Tried to lead me away from my lover

I may see u again my Virginia
But I won't let u bring me down
Tryin take everything I love from me
Leave me cold on the ground

Can't remember a damn thing from last night
Take the honey, drop sugar in my tea
I hear I tied on a pretty good one
And the honey ain't helpin me

But I love my sweet Virginia
But she dont do me no damn good
Tryin take everything I love from me
She wanna kill me cause she knew she could
