

# Confetti Falls

Jessica Jarrell

I Catch you waiting in your truck outside, I jump inside your ride.

Everytime I see your face, it feels like the very first time.

Foot on the dash music's playin, don't care where we go.

We'll have a private party where nobody knows.

Confetti Falls, It's like we have it all. (x2)

Confetti Falls!! (x4) Yeah, Yeah.

Look up to the rainbow sky, boy you make me feel so fly.

City lights in your eyes, with you I don't have to try.

It's like we're on a private float, in our own parade.

Neon glitter stars, here to celebrate.

Confetti Falls, It's like we have it all (x2)

Confetti Falls!! (x4) Yeah, Yeah.

Mean no Cliche', the words that you say

It's poetry, written for me.

Comes so natural, almost magical.

Always make me feel, so beautiful.

You gettin' caught, thinkin my thoughts.

Finish my sentence, ready or not.

It's good to be a girl, wouldn't have it any other way..

So say it to the worldd....

Confetti Falls, It's like we have it all (x2)

Confetti Falls!! (x8) Yeah, Yeah.
